Your personal T5013A – ‘Statement of Partnership Income for Tax Shelters and Renounced Resource Expenses’ will be sent directly to you from your investment dealer’s back office on or before March 31st, 2012. The same procedure is followed in each subsequent year.

This tax filing guide has been provided to assist you in claiming your 2010 tax deductions from your investment in Maple Leaf Short Duration Flow-Through Limited Partnerships (“Maple Leaf” or the “Partnership.”)

This guide should not be considered as tax advice. Maple Leaf strongly recommends you consult with your professional tax and/or investment advisor to determine the appropriate use of tax deductions and other tax considerations.

Please fold out the front cover of this guide and you will find a sample T5013A. The figures provided in your personal T5013A need to be inserted in the applicable sections of your T1 Tax Return and related schedules. Forms referred to in this booklet (T1 General Return, Schedule 3, Schedule 4, T1229, T5004) are available for download through the Canada Revenue Agency (CRA) website www.cra-arc.gc.ca or our website www.MapleLeafFunds.ca.

NOTE: CARRY FORWARDS

Further on claiming resource expenses, the calculations used in Section II and III of your Form T1229 take a little more thought due to the fact that CEE and CDE amounts need not be used immediately and they can be carried forward and used in future years. Likewise, the current year's return could reflect unused amounts carried forward from earlier years. The CCEE column or CCDE column of Section II may require investors to check their returns from the previous year to see if there is unused CEE or CDE from previous years. If there is an amount that has not been claimed, it may be entered on line 1 – "Balance at the beginning of the year." The current year renunciation goes on the second line of this section, and flows down to the bottom of the CCEE or CDEE column.

NOTE: MULTIPLE INVESTMENTS

If you have more than one resource investment, you will need to include all exploration (CEE) or development (CDE) expenses allocated to you in the applicable boxes of this section before computing the amount you may claim in your tax return. The maximum claim is computed on line 4. Enter the amount you wish to claim on line B (generally, this will be the maximum amount). Subtract the amount you wish to claim from the maximum amount to compute the amount, if any and that will be carried forward to 2011. The amount of CCEE or CDEE along with other resource expenditures (acronyms CCOGPE) from line B should be added together and used as the first line of Section III. The final line of Section III is entered on line 224 of your T1 Tax Return.

EXPENSES QUALIFYING FOR INVESTMENT TAX CREDIT (ITC)

This amount represents the renounced Canadian exploration expenses that qualify for the Investment Tax Credit in 2011.

This amount should be reported on a Form T1229 – Statement of Resource Expenses and Depletion Allowance and a T2038 – Investment Tax Credit (Individuals) for calculating the investment tax credit available in 2011 to reduce your federal tax payable for the year, for a previous year, or for a future year.

Residents of British Columbia, Saskatchewan, Manitoba and Ontario can claim additional tax credits on flow-through investments when calculating their provincial taxes. These credits are in addition to the existing deduction of eligible exploration expenditures from the federal portion of an investor's taxes.

The effect of these incentives varies depending on which province the investor resides and the work is performed during the 2011 tax reporting year. For example, if an Alberta-based company incurs costs in Ontario, the Ontario resident may claim the credits, not the Alberta resident, even though the company does not reside in Ontario.

OTHER CONSIDERATIONS

This guide has been designed to offer you assistance when claiming your 2011 tax deduction from your Maple Leaf investment. There are a number of additional considerations that may be applicable to your situation. Here are a few examples:

1 The CEE or CDE election

While an investor is allowed to deduct the full renounced CEE or CDE, it is not required. As part of a tax planning strategy an investor may find it advantageous to carry forward some or all of an available CCEE or CCDE deduction and use this amount in subsequent years.

2 Cumulative Net Investment Losses (CNIL)

Utilization of tax deductions through flow-through shares may have an effect on an investor's calculations of CNIL.

3 Capital Gains Exemptions

Renounced expenditures deducted by the investor may affect the ability of the taxpayer to claim the \$750,000 capital gains exemption in respect of sales of qualified small business shares and certain farm or fishing assets, as the calculation of a taxpayer's CNIL requires an inclusion of 50 per cent of the deductions taken by the taxpayer in respect of flow-through share renouncement's.

4 Alternative Minimum Tax

Alternative minimum tax may apply in a given taxation year, depending on the amount of renounced expenditures deducted by the investor.

5 Issue Costs

Investors may deduct issue costs associated with a flow-through limited partnership over a number of years subsequent to the dissolution of the partnership. These costs can be deducted on line 122 of your income tax return.

NOTE:

This is not a detailed listing of every possible tax consideration and is designed to be a general guide only. Each individual's tax and investment planning situation is unique and professional advice should always be received from a qualified tax and/or investment specialist.

FREQUENTLY ASKED QUESTIONS

WHAT ARE FLOW-THROUGH SHARES?

Flow-through shares are like any other common share issued by a company, except they also provide tax benefits to the purchaser. A flow-through share is available to mining, petroleum and certain types of renewable energy companies to facilitate financing their exploration and project development activities. In return for receiving these funds, the resource company has the obligation to “flow-through” to the purchaser of the flow-through shares the tax deductions it receives upon spending the funds on qualifying exploration and development activities. Except for these initial tax benefits, flow-through shares are indistinguishable from all other common shares of company.

WHAT IS A FLOW-THROUGH LIMITED PARTNERSHIP?

A flow-through limited partnership enables investors to own an equity interest in a portfolio of flow-through shares of Canadian resource companies rather than of just one company.

Canadian resource companies receive special tax deductions for certain exploration and development expenses that flow through the limited partnership to investors, who receive up to a 100% tax deduction for the amount invested. Typically, after a period of 18-24 months, assets of the limited partnership roll over on a tax-deferred basis in exchange for redeemable units or shares of a resource-based mutual fund of equal value.

ARE THE TAX BENEFITS LEGITIMATE?

Yes! The tax benefits associated with flow-through shares are well-accepted in Canada and have been in place through legislation for over 20 years. The other consideration with Maple Leaf Limited Partnership(s) is that the funds invested stay in Canada to be used to create genuine and valuable economic activity and growth within Canada’s mining and energy sector. Further, the tax deductions are only available to those people who pay Canadian taxes. The Partnership and General Partner have received a tax opinion from Borden Ladner Gervais LLP on the structure (please refer to the prospectus of the offering to which you are considering an investment in for the full text on this opinion).

WHEN WILL MY T5013A TAX SLIP BE MAILED OUT?

In January and February of each year the oil and resource companies in which Maple Leaf invests forward their tax information from their exploration and development activities. The information is then forwarded to your investment dealer’s back office in order for them to prepare the T5013A tax forms for mailing to you. The T5013A should be mailed to you on or before March 31st of each year directly to you from your investment dealer’s back office. If you have not received your tax slip by approximately March 31st please contact your investment dealer’s back office.

WHAT IS MY ADJUSTED COST BASE (ACB) AND HOW DO I CALCULATE IT?

The adjusted cost base or “ACB” of a share is generally what you paid for it. However, as an offset to you realizing the significant tax deductions from investing in flow-through shares, you are deemed to have an ACB of nil, due to the receipt of the tax deductions equal to approximately 100% of the amount you invest. A nil adjusted cost base means that when you calculate your capital gains on the disposition of your mutual fund shares, you treat your adjusted cost base as zero. To calculate your adjusted cost base, please contact your investment advisor.

WHAT ARE CAPITAL GAINS AND HOW DO THEY APPLY TO MY FLOW-THROUGH INVESTMENT?

Capital gains tax can incur if the original portfolio of flow-through shares purchased by the Partnership is sold. Typically, when a portfolio manager sells flow-through shares they do so with a view to re-investing the cash into higher quality and lower risk stocks. In this event, any capital gains are automatically allocated to the limited partners on a proportionate basis. Based on the expected roll-over date of the Partnership and amount of capital gains tax incurred, Maple Leaf Flow-Through will consider a cash distribution to unit holders at the beginning of each year that material capital gains are incurred. This cash distribution is typically equal to 50% of estimated taxable gains, less any tax deductions provided to investors (at a rate of 40%) as reported on T5013A information slips.

WHY DO I CONTINUE TO GET TAX INFORMATION SLIPS AFTER THE LIMITED PARTNERSHIP IS WOUND UP?

Initial offering expenses such as printing, issuance costs, legal, audit, office and administrative expenses and certain other costs are deductible over a five-year period beginning at the time such expenses are incurred for the purposes of the Income Tax Act, regardless of the fact that the Limited Partnership’s life is less than five years.
